LEAD IN WATER DISCLAIMER: TCLRC does not test the chemical composition of the water supply in any home. In many older homes, tap water plumbing may contain elements of lead, and water supplies in these homes may also contain lead. Because the Land Bank has not tested this home for the presence or absence of lead or any other contaminants, it makes no claim about such presence or absence. Buyers are responsible for the quality of water in the home and all tests, remediations, or repairs are to be taken on by the buyer at the buyer's expense.				
SEPTIC AND WELL SYSTEM DISCLAIMER: TCLRC does not test or inspect septic or well systems. However, as part of any Purchase Agreement between a buyer and the Land Bank for a home that treats waste water by septic system, you will be required to ensure the septic system operates in full compliance with State of Ohio and local regulations. Please be aware that for many homes running on septic systems, after a short period of disuse, failure of some or all parts of the system is possible. It is the buyers responsibility for any cost of repair, replacement, inspections, and/or permits of the septic system as part of any Purchase Agreement you may enter into with the Land Bank.
